

The Community Built for Life®

#### Welcome to Belmont Village Burbank

A Message from Patricia G. Will, Founder and CEO of Belmont Village Senior Living

I hope we can answer your questions as you move forward with the very important decision to join a senior living community.

A number of years ago my family searched for the right community for my mother-in-law, Josephine Will. In the end, we were unable to find a community that met her need for support and our family's expectations for quality and value. The experience led me to question how I might use my abilities as a businesswoman to improve this situation, addressing the needs of seniors as they age.

Belmont Village was founded to provide a way for seniors to lead happy, self-directed lives in a supporting community, one that offers good value and has been designed from the ground up to be sensitive to senior living. To help shape our communities, we have been guided by leading university experts in the fields of gerontology, architecture, hospitality and dining, and healthcare. We have also used input from seniors and their families as a blueprint for community and program development.

The fruits of our efforts have been gratifying and we are enjoying enthusiastic response across the United States. I am particularly proud of the success of Circle of Friends\*, our innovative memory and brain fitness program, which received national recognition at the prestigious George Mason University Healthcare Quality Improvement Awards.

On a personal note, I am pleased to say that 10 years after our initial search, Belmont Village was here for Josephine's husband, Ed Will, when he needed support. His time at Belmont was filled with new friendships and pursuits, including a talent for singing, which he revealed and shared with friends around the piano in the Belmont Village great room.

If I could leave you with a final thought, it would be that we build Belmont Village communities not just for others, but as places where we ourselves would choose to live in our elder years.

Warmest regards,

Patricia G. Will

### CIRCLE OF FRIENDS®

Several years ago, Belmont Village developed Circle of Friends, a first-of-its-kind, comprehensive and therapeutic program designed to support the needs and abilities of our residents with Mild Cognitive Impairment (MCI) or early to moderate memory loss. It is a structured, seven-day-a-week curriculum of mental and physical activities focused on building cognitive reserve to maintain brain function. The enhanced, daily calendar engages the six domains of mental fitness — critical thinking, memory-body movement, learning, sequencing, long-term memory and problem solving. Activities are customized to ability level and held in small groups to encourage socialization and strengthen self-esteem. Residents continue to live in their senior living residences, dine in Josephine's Kitchen®, and enjoy regular social activities and outings.

Circle of Friends is founded in research and is one of the only evidence-based programs for memory care in Senior Living. We regularly evaluate and refine the program based on what works for our residents, using tools developed in consultation with Vanderbilt University's Center for Quality Aging. Circle of Friends is the recipient of the George Mason University Healthcare Quality Improvement Award and the Argentum Best of the Best in Memory Care Award.

#### **Program Highlights**

- Designed specifically for residents with Mild Cognitive Impairment (MCI) or early to moderate memory loss
- Grounded in research to enhance mental and physical fitness, creativity and reasoning
- Evidence-based with ongoing evaluation by a nationally-recognized gerontologist

A checklist to help you find the community that best fits your needs

It's best to visit as many facilities as you can to get a sense of the choices. Narrow down your selection to the top two or

three choices, and return to those facilities. Ask questions. Consider the convenience of the location. Speak with residents and staff. Eat a meal. Visit at different times of the day and weekend. Use this checklist to compare communities.
